PREFACE

For almost a decade, I have been led to study what the Bible *actually* says about women and to learn from the examples of the women in scripture. This booklet is provided as a resource for you, to make it easier for you to find people and verses in your own investigation. It contains a (nonexhuastive) list of women discussed in scripture and a few topics to study with Bible references This list of women, topics, and corresponding verses is a product of my studies in the Word as well as the research of others, but it is not all encompassing. There are several challenges when approaching this area of study.

First, tradition informs our interpretation. Why does that make this topic difficult? Becuase the prevailing tradition in Christianity is patriarchal, which whether intended or unintended presents us with a view of women being secondary. Our first instinct when reading a name in the text is that it is male. Yet, there are many times when women are listed genealogies as mother or daughter (e.g., 1 Chronicles 4:3; 1 Chronicles 7:17-18). In addition, we have the challenges of language and culture–the names presented are both foreign in language and in time, thus names are not always obviously gendered the way modern names are. This instills in us a bias to assume all the names in genealogies belong to men unless explicitly stated otherwise. Yet, names such as Abihail appear equally masculine and feminine thorouhgout the text. So when no gender is explicitly assigned to the Abihail listed in Numbers 3:35, how do we know what gender to assume? Within this resource, I have listed people like Abihail with a footnote calling out the fact that there is doubt and confusion on the gender of the person,

but it is also possible I have missed people entirely.

Another challenge lies in the number of unnamed women in scripture. These women are sometimes explicitly referenced without name, such as in Gensis 7:13 where we are told that the wives of Noah nad his 3 sons–4 unnamed women–were present on the ark. In this case, I have used the pattern "wife of <Husband's Name>" as the pattern and followed indexing format such that she would be listed alphabeticallys as "<Husband's Name>, wife of." This comes with a secondary challenge for women who are discussed without a relative to reference, or multiple to reference. In those cases I tried to use the most common or logical descriptor. Thus, it you are searching for an unnamed woman, it may be a little more difficult to find her. Of note, there are also implicitly references. For every genealogy that only lists one parent, there is a second parent that is implied even if they aren't mentioned. For example, Genesis 5:6-8 tells us that Seth had children without ever mentioning a woman. Yet, we know at least one woman existed for him to have children. I have not included these women in this compilation.

Finally, there is the question of what is relevant as a topic of study. There are many topics that pertain to both male and female, while others are more directly female (e.g., childbirth). The final pages of this book include topics generally directed toward women by either the Church or Society (often both) and various women and/or verses ofr deeper study on the topic. These are not the *only* topics pertaining to women in the Bible nor are they topics that only pertain to women.

I hope this resource helps you to strengthen your relationship with YHWH, encourages you to love and honor yourself and the women around you, and inspires you.

I

Isaiah, wife of[6] Isaiah 7:14-16[7]; 8:3

Iscah[8] Genesis 11:29

[6]Note, the text does not confirm Isaiah was married to tihs woman; this interpretation is likely because as a prophet we expect him to only have sex within marriage.

[7]this is generally considered a dual prophecy, with the first fulfillment in Isaiah's son, thus "the virgin" could also refer to this mother of Isaiah's child

[8]The referenced text implies Iscah is a woman but does not explicitly tell us this; upon researching I found lexicons show this Hebrew name (Strong's H3252) to be defined as the "daughter of Haran" or the sister of Lot and Milcah.
